

## Apps for Personally Owned Devices (Year 2-6)

Should you wish to send your child to school with an iPad/Tablet, you (parent/carer) will be responsible for the purchase of the required apps being used in your classroom. While the cost of the Apps your classroom utilises will be kept to a minimum, it is entirely up to you as to whether you purchase every App on the list. If you decide one particular App is too expensive, your child will not be disadvantaged, as they will pair up with someone else for that particular lesson.

We suggest the following apps be loaded to Personally Owned Devices. These apps will be used at a whole school level. Classroom teachers may ask you to load additional apps throughout the year.

App		Description	Cost
	Class Dojo (Student)	ClassDojo helps students develop the behaviors and character strengths they need for lifelong success.	Free
	Edmodo	Teachers and students – collaborate – set up class profile of students and organise homework etc. Communication between students, teachers and parents – safe.	Free
	Quick Math	Practice your math while racing the clock. Handwriting recognition interface – general arithmetic skills.	\$2.49
	Dictionary	Top-rated app with trusted reference content from Dictionary.com & Thesaurus.com. WORKS OFFLINE - no Internet connection needed when searching words.	Free
