

SAFESEARCH LOCK ON INTERNET EXPLORER

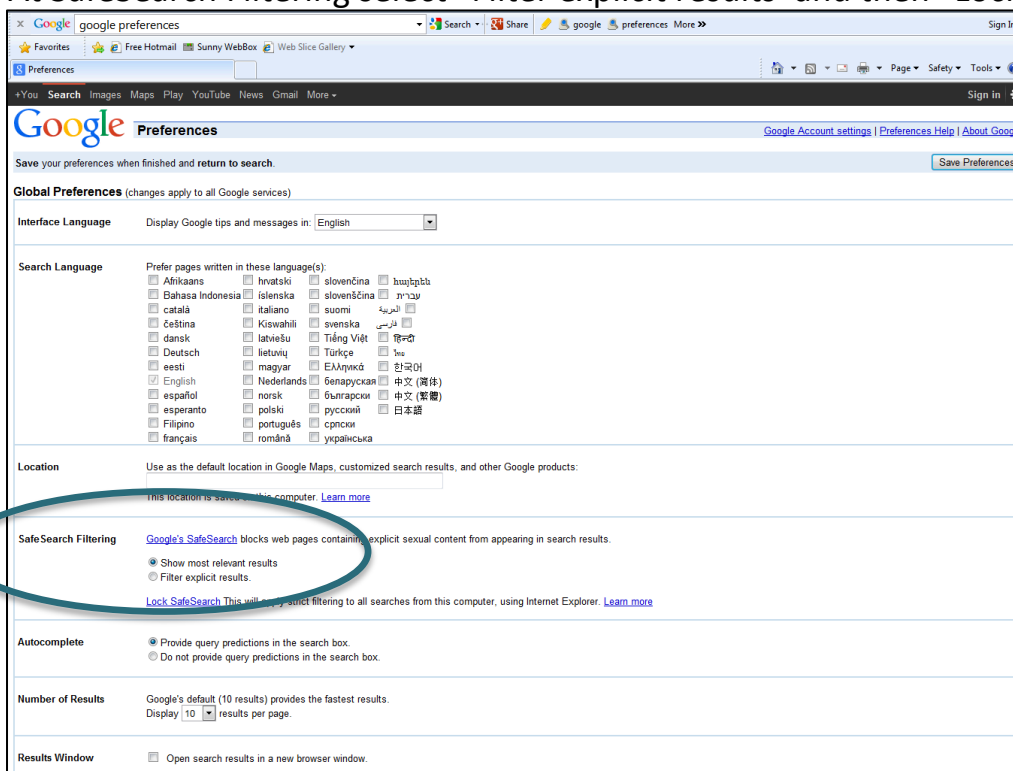

When **SafeSearch** is on, sexually explicit video and images will be filtered from **Google** Search result pages, along with results that might link to explicit content. When **SafeSearch** is off, Google will provide the most relevant results for your search and may include explicit content when you search for it.

Go to Internet Explorer
Search for Google browser

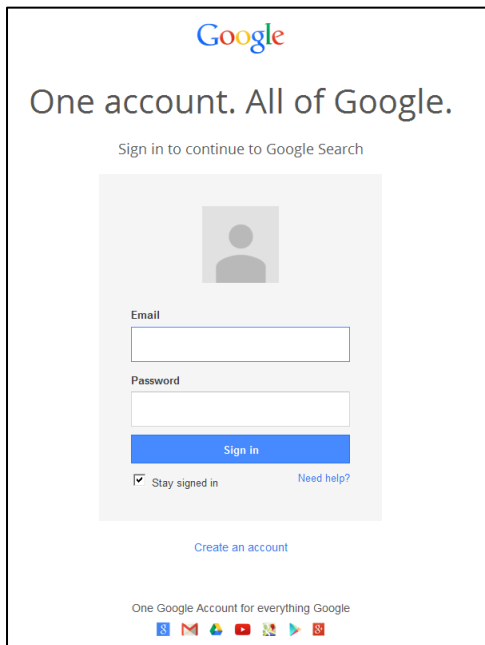

Select the Preferences wheel

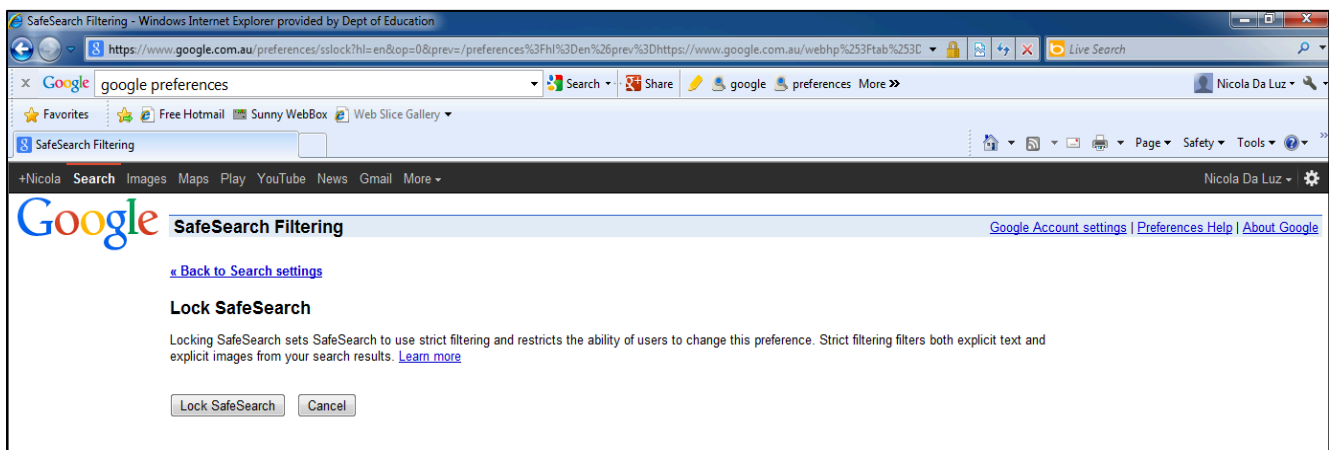

At SafeSearch Filtering select “Filter explicit results” and then “Lock SafeSearch”

Set up a new Google account or enter your details

Once logged in select "Lock SafeSearch" button

SafeSearch is now locked across all Google domains
